The equipment we teach on — in our studios in Bangkok and France

2026 EDITION

FOREWORD

A word from Patricia

When someone asks me which reformer to buy, I never begin with the wood or the springs. I ask a different question: what do you want to feel when you teach?

Over the years I have seen the same thing happen again and again. At first, everyone looks at the machine. Then, little by little, they begin to look at the person on it. A good reformer makes that possible — it does the quiet work, so your attention can stay where it belongs.

And yes, the room matters too. Light, materials and atmosphere shape the way people move and learn. The right machine is the one you will stop noticing — and then you can simply teach.

PATRICIA DUCHAUSSOY · FOUNDER & DIRECTOR OF EDUCATION

WHY US

We started with teaching.

We are teachers first. We train teachers and run studios where we teach every day. The equipment came later — after years of working with clients and students, these are simply the machines we came to trust.

From 2013 to 2019 our Bangkok studio ran thousands of sessions on these machines without a single failure. We offer only the equipment we use ourselves.

We teach Pilates. We run studios. We offer the equipment we trust every day.

FOR OUR GRADUATES

The Graduate Price

Training with Swiss Pilates does not end with your certificate.

Our graduates stay part of the studio — and when the time comes to build a practice of your own, that belonging is worth something real. Every machine in this catalogue is yours at 15% below the standard price, the gold figure beside each one. And every reformer ordered at the Graduate Price comes with a gift to start you off:

Reformer with tower

Includes a Spine Corrector

Reformer on its own

Includes a Foam Spine Corrector

Building a whole studio? We take a further 5% from three machines, and 10% from six — on top of your Graduate Price.

Not certified with us yet? The Graduate Price is kept for those who have trained with us — one more reason to begin with the training.

THE NEXT STEP

From teacher training
to your own practice.

Whatever your plan — teaching from home, a boutique room, or growing an established studio — we would love to help you build a space that teaches the way you do.

Prices shown are for equipment only. Upholstery available in 9 standard colours. Get in touch or email
